Subject: I think we need to follow-up from the LNAPL discussion last week

I did not have time last week to follow-up with you, but I was disappointed with the way the call went. I was also very disappointed that the call went over by 45 minutes, and I was not able stay due to another Red Hill call.

Can we talk one-on-one sometime today or tomorrow? I am available at 3pm my time. I want to understand what the next steps are moving forward to resolve this LNAPL transport prediction issue in an adequate and efficient manner.

Thanks

Steve
